Subj: PROMULGATION OF VOLUMES I AND II OF THE MANUAL OF NAVY ENLISTED MANPOWER AND PERSONNEL CLASSIFICATIONS AND OCCUPATIONAL STANDARDS (NAVPERS 18068F) FOR JULY 2015

Ref: (a) OPNAVINST 1223.1C
(b) NAVPERS 18068F

1. In accordance with reference (a), Volume I of reference (b) is the official manual of Navy Occupational Standards (OCCSTDS) and Volume II of reference (b) is the official manual of Navy Enlisted Classifications (NECs). This edition includes the latest information available at the time of revision.

2. The manual’s effectiveness in occupationally defining the work performed by enlisted personnel and providing correct and timely identification of skilled personnel and requirements depends upon the interactive support of all command echelons. Commands are encouraged to forward recommendations for establishments, revisions, or disestablishments in accordance with reference (b) (Appendix-A).

3. The Bureau of Naval Personnel (BUPERS) CD-ROM will be distributed semi-annually. Requests to have an activity added to the CD-ROM automated distribution list should be addressed to:

   Department of the Navy
   Navy Personnel Command
   Attn: PERS-532D
   5720 Integrity Drive
   Millington, TN 38055-0532

and contain the following pertinent information:

   Standard Navy Distribution List Number (SNDL)
   Activity Name, Acronym, and UIC
   Address
   Attention Code
   Point of Contact with phone number
   Number of CDs requested with justification

E-Mail address corrections to: BUPERSWEB/CD@navy.mil

SUMMARY OF CHANGES

The NEC manual is published quarterly (JAN, APR, JUL, and OCT) to provide updated NEC information in a timely manner. Changes (establishments, revisions, disestablishments) to NEC codes identified by the code numbers listed below were made in this revision. Revised NEC codes are those for which a significant change was made (title change, description, course information, sequence code, source rating, component NEC, and note). Specific revisions to all chapters of the manual are identified with yellow shaded print.

CHAPTER I

INTRODUCTION TO THE NAVY ENLISTED CLASSIFICATION SYSTEM

A. PURPOSE

1. The Navy Enlisted Classification (NEC) system, of which the NEC coding system is a part, supplements the enlisted rating structure in identifying personnel on active or inactive duty and billets in manpower authorizations. NEC codes identify a non-rating wide skill, knowledge, aptitude, or qualification that must be documented to identify both people and billets for management purposes. Additionally, an NEC code can be used to identify special circumstances or situations with approval via the NEOCS process.

2. The NEC coding system facilitates management control over enlisted skills by identifying billets and personnel and enhancing efficient use of personnel in distribution and detailing. In cases where NEC codes reflect special training, inventories of coded billets and coded personnel are also the basis for planning and controlling input of personnel into formal courses that earn NEC codes. Consequently, the continuing enlisted strength of the Navy, particularly petty officer allocations, and funds authorized for rating and specialty training depends, to an increasing extent, upon the accuracy, thoroughness, and timeliness of NEC coding. Personnel required to support ratings and special programs must be identified by the correct combinations of rates and/or NEC codes.

B. TYPES OF NEC CODES

1. **Entry Series NEC codes** consist of Rating Conversion and Occupational Area - Defense Grouping (DG) NEC codes.

   a. **Rating Conversion NEC codes** identify aptitudes and qualifications not discernible from rates alone and are assigned to identify petty officers or identified strikers who are in training for change of rating or status under approved programs.

   b. **Occupational Area - Defense Groupings (DG) NEC codes** relate to groups of ratings for which there is an identification requirement. These NEC codes appear as DG-9700 through DG-9780, which reflect the location of Navy ratings in the Department of Defense Occupational Conversion Manual, Enlisted. The third digit in the codes specifies the DoD Occupational Area Grouping Code used in the DoD Occupational Conversion Manual. USN and USNR personnel in paygrades E-1 through E-3 (not already "rating associated" by rates or by striker identification) must be assigned an appropriate DG NEC code that identifies and indicates that these individuals have received training, are in training, or have aptitude for training in the areas identified by the DG code.

2. **Rating Series NEC codes** relate to a limited number of specific ratings. Rating Series NEC codes identify special or unique billet requirements beyond the skill and knowledge that the general rating would provide. When assigned to an individual, Rating Series NEC codes show that the person has obtained certain skills or knowledge and is qualified for detailing to a billet requirement.

3. **Special Series NEC codes** have the same purpose as Rating Series NEC codes but in general, relate to an unlimited number of ratings.
4. **Alphanumeric NEC codes** are used to identify discrete skills and training levels when justified by the complexity of training and management requirements. Alphanumeric NEC codes require dedicated personnel support to monitor and manage because of the intricacies of coordinating resources and support systems. Therefore, recommendations for alphanumeric NEC codes are to be submitted only through Warfare or Resource Sponsors after a development process that completely addresses all the elements required to make the program successful. These elements include:

   a. Development of a training structure, in cooperation with appropriate training program coordinators.

   b. A definite plan or program for tracking the inventory or requirements and personnel assets.

   c. A commitment from the Warfare or Resource Sponsor to provide dedicated support personnel to management and monitoring of the program. Decisions on the feasibility of expanding use of alphanumeric NEC codes will be based on experience gained from the submarine community alphanumeric NEC codes. Use of alphanumeric NEC codes is limited to submarine ET and IT ratings and rating conversion NEC codes. Use of alphanumeric coding may be opened to other ratings only when all numeric codes have been depleted.

5. **Numerical NEC codes** not included in Rating Series or Special Series are grouped under EOD/DIVER/SEAL, Nuclear, Aircrew or Aircraft Systems Maintenance.

6. **Tracking NEC codes** are approved for tracking unique training/skill sets and/or experience of a Sailor that is not classified as a manpower requirement; they are normally associated with personnel only and not billets. They are used by personnel managers to track “unique” training, i.e. GSA/OSA NEC codes; personnel absorbed into another rating, i.e. 00LI, 00PC, and OCTA for verification that they are not being disadvantaged; and unique qualifications such as, i.e. Nuclear Propulsion Plant Operator Trainee (9901).

    For distribution purposes only, there are some NEC codes not listed in Chapter IV that have billets, but are not awardable to personnel, i.e. Female Petty Officer (9999). Additionally, there are other distribution NEC codes that are used to create unique requisitions that are also not awardable, i.e. Seaman GENDET Male Only (0051). Most tracking NEC codes are for a particular assignment and will disappear upon transfer, whereas others will stay in inventory till they are no longer required by the managers or personnel have exceeded the pay grade range.

7. **Planning NEC codes** are approved for planning purposes only and are listed in Chapter V of this manual. These NEC codes may be used in conjunction with Navy Training Plans, in developing planned training courses, and other applicable long-range projects. Planning NEC codes listed in Chapter V may be written in manpower authorizations to project requirements and used for other planning purposes; however, they are not assigned to personnel.

    Submit requests for Planning NEC codes to Commanding Officer, Navy Manpower Analysis Center (Code 10) via the chain of command. A request must include a proposed title, a ready-for-training date (actual or estimated), billet paygrades, and point of contact. Submit requests to convert approved Planning NEC codes to Rating or Special series NEC codes 180 days before the date the NEC code is to be awarded (i.e., 180 days before completion of initial course or factory training). Appendix A identifies requirements for establishing new NEC codes.
C. NEC CODE RELATIONSHIPS

1. **Principal NEC codes** identify stand alone skills and may include skills or abilities identified by Component and/or Related NECs. To earn a Principal NEC code that includes a Component NEC, an individual must either already be assigned the Component NEC(s) or be fully qualified for such assignment. When an individual earns a Principal NEC code, in **MOST** cases the individual will not be coded with the Component NEC listed with the Principle NEC code. Component NECs are **NORMALLY** removed from the Enlisted Master Record (EMR) when a principal NEC code is awarded.

2. **Component NECs** are prerequisite qualifications for assignment of the Principal NEC code. Chapter IV lists component NECs with the Principal NEC code with which they are associated. Prerequisite skill(s) (Component NEC) that a member must have earned before being awarded the principle NEC code, if any. Under normal circumstances the Component NEC is removed once the principal NEC code is awarded. However, with sufficient justification for unique situations such as community management initiatives or legacy retainment purposes, the Component NEC may be retained in the members EMR; the stipulation for retainment will be annotated in the NOTE section of the principal NEC code.

3. **Related NECs** identify qualifications generally similar to those of the Principal NEC code but are not prerequisites for earning the Principal NEC code. Chapter IV lists Related NECs with the Principal NEC code with which they are associated and are shown for information purposes only.

4. **NEC Sequencing**:
   
a. NAVMAC (Code 10) has verification responsibility regarding the assignment of Sequence codes for proposed NECs. NAVMAC ensures adherence with established guidelines and will coordinate any exceptions with the ECM.

b. Change of Sequence codes are handled as an NEC code revision and staffed for concurrence from the NEOCS Board.

c. The primary consideration used to make a recommendation to determine assignment of a Sequence code is NEC code seniority and/or specialized skills. The Sequence codes will range from 1 to 9, with 1 being the highest position (highest priority) and 9 being the lowest position. A Career NEC code will have a higher position than an Initial NEC code.

d. Sequence codes (positions) will be determined using the following guidelines:

<table>

Special Series Technical or Supervisor in nature. NEC codes that may be used again (i.e., Microminiature Repair Inspector, Instructor, Safety).

Special Series Non-Technical single-use or Tracking NEC codes (i.e., Correctional Counselor, 0093, 8201).

GWOT (Global War on Terrorism) Support Assignment (GSA)/Individual Augmentee and Expeditionary Forces NEC code management.

NOTES:

1. When an NEC code is a component of/or a building block to a more advanced NEC code, the Sequence Code assigned to the Component NEC will normally be assigned a lower priority sequence code than the principal NEC code.

2. In cases where an individual earns two or more NEC codes with the same sequence code number, the NEC code that the individual most recently qualified for will take precedence except in unusual circumstances. NEC code sequence code numbers are shown in Chapter IV.

3. Source Ratings are listed with each Rating Series NEC code.
   a. Rating Series NEC codes will be assigned only to personnel in designated source ratings or the apprenticeship rates and/or striker-identified rates applicable to a designated source rating including DG NEC-identified personnel leading to designated source ratings.
   b. Personnel should be nominated or sent to courses of instruction earning NEC codes only if they are in the proper source rating or apprenticeship.
   c. Personnel already specialized by a Rating Series NEC code normally should not be nominated or sent to a course of instruction earning an additional NEC code unless the course is a logical progression of the earlier specialty training, the NEC code held embodies an outdated technology, or they are in an approved program for formal conversion to a new rating.

4. Paygrade restrictions for assignment of NEC codes to individuals and for application to billets are listed in Chapter IV. Refer to Chapter V for paygrade information for Planning Series NEC codes. Billet paygrades for NEC codes are provided as guidance in changing or recommending changes to Activity Manpower Document (AMD) or other enlisted manpower documents. The billet paygrade range information is based on one or more of the following:
   a. Personnel paygrade restrictions (see Chapter IV).
   b. Training course prerequisites contained in the Catalog of Navy Training Courses (CANTRAC) (NAVEDTRA 10500).
   c. Authoritative judgment obtained from BUPERS Enlisted Community Managers, Primary Rating Advisors, and others possessing specialized knowledge.
   d. Data provided in research studies and analyses.
D. NEC CODING USED IN MANPOWER, PERSONNEL AND TRAINING INFORMATION SYSTEM (MAPTIS)

1. An NEC code is assigned to an individual when it is recorded in the Manpower, Personnel and Training Information System (MAPTIS). A page 4 service record entry will reflect these authorized assignments as a 4- character NEC code value. A value of "0000" is used where no Entry, Rating, or Special Series NEC code is assigned.

2. **Entry Series** NEC codes are always Primary NEC (PNEC) codes and are not removed until an individual has advanced to petty officer status, becomes an identified striker, or changes rating status.

3. **Special Series** NEC codes are always Secondary NEC (SNEC) codes or lower.

4. **Rating Series/Tracking** NEC codes are PNEC codes, SNEC codes, or lower (depending on the number of NEC codes earned by an individual) but may not replace an Entry Series NEC code unless the individual has advanced to petty officer status, has become an identified striker, or has changed rating status.

E. APPLICABLE COURSES AND ON-THE-JOB TRAINING

Formal courses of instruction, satisfactory completion of which will earn an NEC code, are listed in Chapter IV with the applicable NEC code. If a formal course is mandatory for earning an NEC code, it will be shown in Chapter IV. Chapter IV will also show if a NEC code may be awarded through on-the-job training (OJT) or, if appropriate, through factory training. See NEC code assignment information for personnel (Chapter IV paragraph B.4) for additional information on recommending personnel for NEC codes based on OJT.
CHAPTER II
RESPONSIBILITIES AND PROCEDURES

A. AUTHORITIES AND RESPONSIBILITIES

1. The Chief of Naval Personnel (NAVPERSCOM) is responsible for the formulation and implementation of the NEC coding system and for maintaining technical control over the entire NEC system per MILPERSMAN. Authorities and responsibilities delegated by CHNAVPERS, as per MILPERSMAN 1221-010, are outlined below.

2. The NEC Management Section (Pers-4013) is responsible for administering the NEC coding system for enlisted personnel not on active duty. In this regard, the Commander, Navy Reserve Forces Command and the Navy Reserve Readiness Commanders will continue to monitor NEC coding efforts by inspections and through the Reserve Pay and Personnel Services. This includes Conversion NEC assignments and cancellations.

3. The NEC Management Section (Pers-4013), in coordination with the Chief of Naval Personnel (CHNAVPERS), is responsible for effective use of NEC information in the distribution, placement, and detailing of enlisted personnel.

4. Commands conducting courses of instruction that award NECs are responsible for reporting on students per NETCINST 1510.1 series.

5. Enlisted Classification Units, under the technical direction of the NAVPERS, are responsible for reviewing NECs, correcting Defense Grouping (DG) NECs where necessary, and recommending coding assignments or cancellations directly to Pers-4013D2.

6. All commands are responsible to ensure that only personnel in proper source ratings are afforded training in NEC specialties, for making recommendations for NEC identification of billets in their manpower authorizations, assigning or changing DG NECs per this manual, and recommending assignment or cancellation of all other NECs per this manual.

B. INSTRUCTIONS FOR ASSIGNING AND CANCELING NECS

1. NECs (except DG NECs), may be assigned or canceled as follows:

   a. By commands conducting formal courses of instruction submitting reports per NETCINST 1510.1 series.

   b. By Enlisted Classification Units submitting recommendations to Pers-4013D2 for accessions to active duty.

   c. By the NEC Management Section (Pers-4013) for active duty personnel.

   (1) Assigning NECs to personnel through on-the-job training or where not otherwise reported via the Corporate enterprise Training Activity Resource System (CeTARS).
2. **DG NECs.** Individual commands and drilling units are directly responsible for assigning and changing DG NEC codes as follows:

   a. For personnel in paygrades E-1, E-2, and E-3 who are not identified strikers or are not in the HM apprenticeship rates:

      (1) Assignment may be changed to another DG NEC but may never be replaced with "0000".

      (2) Personnel in Class A level training who were assigned DG NECs as recruit graduates do not have to be recoded while undergoing courses of instruction, unless disenrolled.

   b. In the above cases, record the DG NEC code assignment or change by a page 4 service record entry and report this assignment or change by a personnel diary or RESFIRST NEC entry. All eight digits must be reported.

   c. If an individual with an Entry Series code holds a Rating Series code, the NEC code may be changed only by submitting an NAVPERS 1221/6 to the NEC Management Section (Pers-4013). This exception does not apply to an individual holding a Special Series code.

   d. For personnel holding DG NECs who become identified strikers or petty officers:

      (1) Cancel DG NEC by page 4 service record entry.

      (2) Do not report cancellation of DG NEC by personnel diary or NSIPS entry. These NEC codes will be automatically canceled in the Manpower, Personnel and Management Information System (MAPMIS) when the correct rate change or advancement is reported and accepted by CHNAVPERS or NEC Management Section (Pers-4013) as appropriate. Canceled codes will continue to appear on at least one EDVR or in NSIPS pending adjustment of NECs.

3. **NECs for Personnel.** Individual commands and drilling units are responsible for recommending assignment or cancellation of all NECs other than Entry Series NECs as follows:

   a. Active Duty

      (1) USN and USNR, including TAR: to Commanding Officer, Enlisted Personnel Management Center (Code 49).

      (2) Exceptions to the normal award criteria, including waivers, are to be requested from PERS-4013D2 via endorsing commands per current OPNAV and NAVPERS instructions or as noted in Chapter IV of this manual as a specific note to that NEC. Chief of Naval Operations, Head Enlisted
Community Management BUPERS-32 will provide policy guidance to Pers-4013D2 concerning NEC removals and award criteria. Exceptions include:

(a) Nuclear Propulsion Plant Operator (33XX): OPNAVINST 1220.1 (series) (NOTAL) contains amplifying instructions and additional criteria for removing or changing NECs used to designate personnel trained as Nuclear Propulsion Plant Operators (Surface and Submarine). Submit NAVPERS 1221/6 for these personnel directly to OPNAV (N132).

(b) Remove submarine related NECs via Head, Nuclear Power/Submarine Assignment Branch (Pers-403). Of special note, submarine disqualifications and reinstatements will be per the MILPERSMAN 1306-418 and 1220-040, with Pers-403 as the final adjudicator.

(c) HM NEC removals and waivers of mandatory courses of instruction will in all cases be forwarded by Pers-4013D2 to OPNAV (N13) for adjudication.

   (1) HM personnel holding an NEC beyond the prescribed paygrade cap will not have their NEC removed without OPNAV (N132) approval. This is to facilitate the management of critical specialties as the inventory paygrade ceilings transition to match billet paygrade ceilings while ensuring the strength of each community adequately sustains mission requirements.

   (2) HM personnel who lose their NEC for misperformance or disciplinary reasons will have the NEC removed from the Enlisted Master Record. Commands are required to provide appropriate supporting documentation, (i.e., special evaluation). NEC removals should not be used in place of administrative separation proceedings or forced conversions.

   (3) Certification/recertification of clinical proficiency is the responsibility of the member. Failure to attain and maintain clinical proficiency is ground for NEC removal, loss of remaining SRB entitlement, and reassignment as an HM "0000."

NOTE: With current policies and instructions in place to establish the validity of an individual's NEC qualifications, the via endorsement will be the determining factor in the award or removal of the NEC from the individual's Enlisted Master Record.

b. Inactive Duty

(1) All Rating Conversion codes: to the Commanding Officer, Enlisted Placement Management Center via cognizant Naval Reserve Readiness Commander or Chief, Naval Reserve as appropriate.

(2) Intelligence Specialist personnel in paygrades E-7 and below: to Naval Intelligence Command (NIC-13), 4600 Silver Hill Road, Washington, D.C. 20389-5000 via Commanding Officer with the following documentation:

   (a) Inactive Navy Enlisted Classification Code Change Recommendation (NAVPERS 1221/6).

   (b) Certified copies of last three enlisted evaluations.

   (c) All Navy Occupational, Training and Awards History (NAVPERS 1070/604 Rev 11-81).
(3) Restricted NECs (Non-traditional training or experience): to the Commanding Officer, Enlisted Placement Management Center via cognizant Naval Reserve Readiness Commander/ISIC and Chief of Naval Reserve with the following documentation:

(a) Inactive Navy Enlisted Classification Code Change Recommendation (NAVPERS 1221/6) including justification for assignment of requested NEC.

(b) Certified copies of substantiating documentation (degree, vocational certificates, professional licenses, etc.).

(c) Current job description if NEC requested is based on civilian work experience.

(4) NPC (PERS-4013) will take appropriate action upon receipt and if applicable forward the package, including coordination of request to waiver NEC requirements with OPNAV (N13) cognizant Enlisted Community Managers, to the program Technical Advisor for final determination or certification.

C. GENERAL ASSIGNMENT AND CANCELLATION INFORMATION

1. Personnel are automatically assigned NECs upon satisfactory completion of applicable courses through the Corporate enterprise Training Activity Resource System (CeTARS) as outlined in NETCINST 1510.10 (series). This ensures faster NEC assignments and reduces paperwork at the command level. NECs earned through OJT and factory training is not automatically assigned, therefore, increased command attention is required to recommend fully qualified personnel for these NECs. In those cases where NEC assignments are not restricted to mandatory completion of applicable courses or factory training, recommendations can and should be forwarded for assignment of NECs based on OJT. The length of OJT is normally at the discretion of individual commanding officers, however, six to twelve months, depending on the complexity of the NEC, should be considered minimum. Specific requirements for NECs are listed in Chapter IV as "NOTES" under an NEC or NEC group heading. Commanding Officers must ensure that these specific requirements, including any component NECs, are successfully completed.

2. Individuals must either hold or be qualified to hold the component NECs. To recommend personnel for an NEC use the Navy Enlisted Classification Code Change Recommendation (NAVPERS 1221/6) for active and inactive duty personnel. See Appendix A for additional information and instructions for NEC recommendations.

3. When recommending new NEC assignments, review qualifications for NECs presently held and provide comment, particularly in those instances where a positive requirement exists for maintaining NEC qualifications in accordance with established criteria, (e.g., Aircrewman qualifications).

4. Close command attention is required for recommending cancellation of NECs. This requires command recommendations to cancel NEC assignments in cases where enlisted personnel do not perform their NEC duties satisfactorily, normally within six months after reporting aboard. Failure to recommend NEC cancellation may result in these unqualified or unsatisfactory performers being reassigned under the NEC, possibly resulting in manning or readiness problems for a new command or in the failure to assign sufficient qualified personnel to current command.

Note: Appendix A provides instructions on how to prepare and submit recommendations for establishing, deleting, or revising NEC codes.
D. COMMAND REQUESTED BILLET NEC CHANGES

1. Procedures are specifically noted in the Manual of Navy Total Forces Manpower Policies and Procedures (OPNAVINST 1000.16 series). The specific information required and format to be followed for each situation is provided in detail.

2. Of special interest, the Activity Manpower Document Short-format Change Request applies to NEC changes being requested for authorized billets. The request format is found in OPNAVINST 1000.16 and applies to military ships and squadrons only. It is provided for requesting minor changes to reduce the response time. The changes that may be requested by use of the short-format change request are restricted to:
   
   a. NEC changes for billets incident to authorized equipment changes. Not authorized using short-form change requests are changes for aircrew, instructor or counselor NECs.
   
   b. Correction of typographical errors noted in Manpower Authorizations, (i.e., billet titles).

3. Submit Activity Manpower Document (AMD) change requests to Navy Manpower Analysis Center (Code 20) via chain of command, (i.e., type commander/manpower claimant. Clearly substantiate the request and attach required supporting documentation.
CHAPTER III

NAVY RATINGS AND ENTRY SERIES NEC CODES

Paragraph A of this section identifies the current Navy ratings. Paragraphs B and C identify the Entry Series NECs used by detailers and classifiers. There are two kinds of Entry Series NECs (1) Rating Conversion and (2) Occupational Area - Defense Grouping.

A. NAVY RATINGS

1. General Ratings (SECNAV Approved): Identify personnel from paygrades E-4 through E-9. They provide the primary means of identifying billet requirements and personnel qualifications. Each rating has a distinctive rating badge.

2. Service Ratings (CNO Approved): These are subdivisions of certain general ratings. Service Ratings identify required specialization and specific areas of qualifications in the utilization and training of personnel. The rating badge for a Service Rating is the same as that for the General Rating.

3. Compression Ratings: Identify the combining of several General or Service Ratings at paygrade E-9 to form broader career fields when the occupational content is similar. These ratings exist only at the E-9 level and are not identified previously as a General or Service Rating.

Note: The third digit in the DG Codes indicates the DoD Occupational Area Grouping Code.
CHAPTER IV
RATING SERIES AND SPECIAL SERIES NEC CODES

A. PURPOSE

Rating series NEC codes are for a limited number of ratings and are used for billet requirements and personnel assignment. Rating series NEC codes identify billet requirements (skill/knowledge requirements) beyond the skill and knowledge that the general rating would provide. Rating series NEC codes are also assigned to an individual to show that the person has obtained certain skills or knowledge and is qualified for detailing to a billet requirement.

Special series NEC codes have the same purpose as Rating series NEC codes but in general, relate to a large number of ratings.

NEC codes throughout the manual are listed in numerical sequence and not by rating. Chapter 3, Rating Conversion NEC codes may be used as an index to help locate specific rating NEC codes.

Headings associated with NEC code descriptions identified in this chapter are defined in paragraph B. The YELLOW shaded print denotes an update for the most current entries into this chapter.

B. DEFINITIONS

1. SOURCE RATINGS. Ratings eligible for NEC code award.

2. BILLET PAYGRADES. This information is presented as guidance in writing billets on Activity Manpower Document (AMD). Low/High paygrades reflect the lowest and highest paygrades that can be written for billets identified by the NEC code. Commands requesting changes to manpower authorization should comply with these paygrade limits.

3. PERSONNEL PAYGRADES. The NEC code may be assigned only to personnel in paygrades indicated.

4. COURSE. Identifies whether completion of a training course(s) is a mandatory requirement for assignment of the NEC code or whether the NEC code may be earned through OJT (On-the-Job-Training), (i.e., based on qualification through on-the-job training). If the length of OJT is not specified, it shall normally be a minimum of six months.

5. COURSE IDENTIFICATION NUMBER (CIN). The Navy Course Identification Number (CIN) is obtained from Corporate enterprise Training Activity Resource System (CeTARS). An indicator P/L (Pipeline) next to CIN signifies that additional COI is required before NEC code could be awarded. If blank, the NEC is awarded through a combination of one or more Component NECs or on-the-job training, or assignment of NEC has been discontinued.

6. COURSE DATA PROCESSING NUMBERS (CDPs) FROM CeTARS. CDPs are assigned to formal training courses included within CeTARS per NETCINST 1510.1 (series). They are used by the Bureau of Naval Personnel and training activities for reference purposes.

7. SEQUENCE CODE. The number that appears in this column (1 through 9) identifies the position of NECs on the Enlisted Distribution Verification Report (EDVR) section 8 and other documents used in personnel distribution. Appendix A, pg 2, Para 1.b provides guidance in determining assignment of Sequence codes.

8. ESTB DATE (Establishment Date). The date (e. g. 9/10/01) in which the approval letter was signed to establish the NEC. The NEC was effective immediately as of this date.

9. REV DATE (Revision Date). The date (e. g. 10/3/11) in which the approval letter was signed to implement the latest revision(s) to the NEC. The NEC revision(s) was/were effective immediately as of this date.
10. **NR IND (Reservist Indicator).** The following letters are used to categorize the attainability of NECs by inactive duty Selected Reserve (SELRES) personnel, and the assignment of NECs to SELRES personnel and manpower requirements:

   A: The NEC is attainable by SELRES, and is therefore assignable to SELRES personnel and manpower requirements with no restrictions. SELRES are able to complete training for the NEC within three years of normal inactive duty training cycles of 48 regular drills and two weeks Annual Training (AT) per year (Training Category (TRC) A). The NEC can be earned by the following means:

   - Active Duty formal training courses that have not been modified or segmented into modules for SELRES applications,
   - Segmented or modularized formal training courses that may be completed within three years of normal TRC A training cycles (Note 1),
   - Specific civilian training/certification (Note 2), or
   - On-the-job training (OJT) that can be completed with three years of normal TRC A training cycles (Note 1).

   Additionally, NECs are assignable to SELRES manpower requirements if the formal courses of instruction that award the NEC will be modified to facilitate SELRES completion of all requirements for the NEC within three years of normal TRC A training cycles. The requirements for periodic recertification/requalification for the NEC cannot exceed a normal, annual TRC A training cycle (Note 1).

   R: The NEC cannot normally be attained by SELRES within three years or normal TRC A training cycles, but is assignable with restrictions to SELRES manpower requirements if SELRES already holding a NEC in this category can maintain periodic recertification/requalification required for the NEC within a normal, annual TRC A training cycle.

   N: The NEC is not assignable to SELRES personnel or manpower requirements because periodic recertification/requalification for the NEC cannot be maintained by a SELRES during a normal, annual TRC A training cycle. Programming of SELRES manpower requirements with these NECs is not authorized (Note 4).

**NOTES:**

1. A formal training course that awards the NEC or maintains recertification/requalification may be segmented into modules if recommended by COMNAVRESFOR (Code 04), approved by OPNAV (N7/CNET) and certified to be funded for segmentation by the appropriate OPNAV resource sponsor. If the training agent certifies that the training course will be on line within one year, assignment of the NR IND of A is allowed.

2. NECs will be awarded to SELRES personnel upon completion of civilian training courses leading to the awarding of a certificate, diploma or license, and for the completion of OJT when a waiver of formal training requirements has been requested and obtained from the appropriate training agent.

3. COMNAVRESFOR will annually review and coordinate the update of all SELRES NEC categories with appropriate NEC Advisors.

11. **COMPONENT NEC.** Prerequisite requirement for awarding the principal NEC code to personnel. Under normal circumstances the Component NEC is removed once the principal NEC code is awarded. However, with sufficient justification for unique situations such as community management initiatives or legacy retainment purposes, the Component NEC may be retained in the members personnel record; the stipulation for retainment will be annotated in the NOTE section of the principal NEC code.

12. **RELATED NEC.** NEC that is not a prerequisite to the principal NEC, but is similar or identical with part or parts of a principal NEC.

13. **OPEN TO WOMEN.** Open: NEC is open to women. Closed: NEC is not open to women.

14. **PRIMARY ADVISOR.** The command or office with primary responsibility for the functional or mission area that a NEC is principally used. The Primary Advisor is concerned with all aspects of associated NECs.

15. **TECHNICAL ADVISOR.** The command or office having cognizance over the technical areas in which a NEC is principally used. The Technical Advisor is concerned with manpower or weapon system relationships and training requirements related to technical aspects of the NEC.

16. **ECM/PERS.** BUPERS code responsible for managing the "health and welfare" and career development plans of the enlisted ratings, rates and NECs within his/her purview.

17. **NOTE (S).** Contains additional information that is pertinent for the assignment of the NEC code to both billets and personnel. Identifies special qualifications associated with the NEC code (i.e. a security clearance, 20/20 vision, certifications); specific criteria for recertification and any related timelines shall also be addressed; any other special stipulations required for awarding and/or assignment. This section is also utilized to provide guidance for retaining the NEC code on billets for a period of time or occurrence such as the phasing-out/sun-downing of legacy equipment. For accurate NEC code management it is very important that the Primary and Technical Advisors conduct, at a minimum, an annual review of ALL NEC codes under their purview for validity. The Catalog of Navy Training Courses (CANTRAC) is the authoritative source for specific training, certification/recertification, and other requisite requirements such as physical stature attributes that MUST be maintained by an individual.

0527 - AN/SQQ-89A(V)15/(V)15 EC204 Surface Ship USW Combat Systems Journeyman
Directs, coordinates, monitors, and manages the performance of AN/SQQ-89A(V)15/(V)15 Sonar Control manned watch stations. Interprets sensor and support equipment outputs, recognizes and responds to environmental and tactical changes, and provides continuous tactical advice. Obtains and maintains a full understanding of the USW situation and makes effective use of the system's sensor and processing resources to achieve mission success. Performs all internal and external communications between the Sonar Control Watch Team and all other ship Watch Teams. In a duel role, operates the Undersea Warfare Control Functional Segment (UCFS) in all tactical situations to effectively classify, localize, track, and attack USW and small object contacts. Contact handling responsibilities include track management coordination including system-level add, merge and drop functions; working with the plotting team in developing TMA solutions; and coordinating contact classification changes between the Sonar Control and Combat Information Center teams. Fire control responsibilities include engagement planning and target prosecution using the Over-the-Side (OTS) torpedoes and VLS-launched ASROC (VLA). Recognizes and interprets system alerts and degraded/casualty indications. Operates the System Resource Manager (SRM) to perform system reconfiguration, clear faults, or assist the maintenance technician with UCFS troubleshooting.

NOTES:
1. NEC code 0527 is awarded upon completion of AN/SQQ-89A(V)15 Surface Ship USW Combat Systems Journeyman factory training. Submit NAVPERS 1221-6 to PERS-4013D2.

0530 - AN/BQQ-10(V) TI-10/12 Operator/Maintainer
Operates and performs organizational level maintenance on all assigned AN/BQQ-10(V) TI-10/12 Sonar Systems. Conducts preventative maintenance and troubleshooting analysis to isolate and repair system faults and failures.

NOTES:
1. Secret security clearance required.
2. Must be physically qualified for submarine duty.

0540 - AN/SQQ-34C (V) 2 Aircraft Carrier Tactical Support Center (CV-TSC) Operator
Supports the mission of the CV-TSC through utilization of the tactical and sensor functions of the AN/SQQ-34 (V) 2 system and supporting peripheral equipment. Performs AN/SQQ-34C (V) 2 set-up and configuration based on mission task. Operates the Chart Workspace, Acoustic Sensor Workspace, Radar and Camera Workspace, Aircraft Management Workspace, Mission Support Workspace, and Help Workspace to support all facets of carrier based Anti-Submarine Warfare (ASW), Surface Surveillance, Search and Rescue (SAR), and operations conducted by organic (MH-60R) and inorganic (P-3/P-8/NATO) tactical aircraft. Tasks include: employment of a digital tactical plot and Tactical Decision Aids (TDA); sensor processing and data analysis; environmental data collection and analysis; mission planning and reconstruction; interpretation of and writing maritime formatted messages; the employment of a tactical and sensor data link with organic aircraft; and the mission and aircrew support functions associated with organic tactical aircraft. Recognizes and interprets system alerts and degraded/casualty indications.

NOTES:

NEC assignment determined by Chief of Naval Operations (N13). NAVMILPERSCOM INSTRUCTION 1540.1 Series and OPNAVINST 1220.1 Series (NOTAL) apply.
2. Last reviewed during “NAVMAC Periodicity Review” completed 6/1/15.
3363-3366 - Submarine Nuclear Propulsion Plant Supervisors

Fully qualified by virtue of seniority, experience and demonstrated proficiency (including specified watchstation qualification) to supervise the operation and maintenance of a submarine nuclear propulsion plant.

NOTES:
1. Assigned upon recommendation by the Commanding Officer to Petty Officers Second Class and above who have completed six or more years active naval service and are currently qualified the specified watchstations. For paygrade E-5, the Commanding Officer should ensure all military and professional requirements for advancement to E-6 are completed before forwarding recommendation (Include watchstation qualification dates and completion of advancement requirements on NAVPERS 1221/6).
2. Members serving in senior nuclear billets (NEC 336X) at commands where the specified watchstations do not exist are considered to have satisfied the watch qualification criteria if they were previously qualified on the required watchstations. Personnel who are advanced to CPO while serving at these commands may continue to be eligible for NEC 336X based on previous attainment of watchstation qualification required for paygrade E-6. In all cases, previous watchqualification qualification must be documented in the member's service record.
3. Members with NEC 336X who are transferred to a nuclear powered ship and assigned in a senior nuclear billet will retain NEC 336X for a maximum of six months. If the member has requalified on the applicable watchstations, NEC 336X may be retained. If the member has not requalified in six months, the Commanding Officer is directed to recommend a change in NEC 336X to 335X or removal of NEC as appropriate (See OPNAVINST 1220.1 Series for guidance).
4. First Class Petty Officers with NEC 336X attached to nuclear powered ships who are advanced to CPO will retain their NEC while completing qualification as Engineering Watch Supervisor. OPNAVINST 1220.1 Series (NOTAL) specifies time limits for attainment of required watchstation qualification.
5. Members with NEC 3359 who are scheduled to be transferred to a nuclear powered ship are screened by Bureau of Naval Personnel (N13) per MILPERSCOMINST 1540.1 Series. Based upon this screening, NEC 335X or NEC 336X will be assigned. Bureau of Naval Personnel (N13) will specify requalification time limits for the individual by letter to his/her Commanding Officer. MILPERSCOMINST 1540.1 Series and OPNAVINST 1220.1 Series (NOTAL) apply. Commanding Officers should recommend NEC change to 335X as a step toward possible NEC removal recommendation when personnel with 336X are delinquent in requalification (See OPNAVINST 1220.1 Series of guidance).
6. Commanding Officers shall recommend NEC 335X in the case of those members with NEC 336X who are unable to maintain the necessary proficiency and leadership skills for continued assignment in senior nuclear power supervisor positions but who are still considered satisfactory nuclear propulsion plant operators. Those personnel who are unable to regain the necessary proficiency and leadership skills for supervisory positions should be considered for removal of their nuclear operator NEC 336X (See OPNAVINST 1220.1 Series of guidance).
7. On each ship there may be a few, singularly outstanding individuals who have clearly demonstrated that they are able to be effective supervisors and are qualified by virtue of seniority, experience and demonstrated proficiency (including specified watchstation qualification) to supervise the operation and maintenance of a submarine nuclear propulsion plant. Those personnel who are unable to regain the necessary proficiency and leadership skills for supervisory positions should be considered for removal of their nuclear operator NEC 336X (See OPNAVINST 1220.1 Series of guidance).
8. Submit recommendations for change or removal of NECs for Enlisted Nuclear Propulsion Operators to the Bureau of Naval Personnel (N13) who will resolve the NEC change recommendation (See OPNAVINST 1220.1 Series for additional guidance).

Billet Paygrades: E4-E9  
Personnel Paygrades: E3-E9

NOTES:
1. Previously qualified for any 338X/339X NEC but not currently assigned to a nuclear propulsion plant billet associated with the supervision, operation and maintenance of a nuclear propulsion plant. NEC assignment is determined by the Chief of Naval Operations (N13).

NAVMILPERSCOMINST 1540.1 Series and OPNAVINST 1220.1 Series apply.
3393-3396 - Surface Ship Nuclear Propulsion Plant Supervisors

Fully qualified by virtue of seniority, experience and demonstrated proficiency (including specified watchstation qualification) to supervise the operation and maintenance of surface ship nuclear propulsion plants.

NOTES:
1. Assigned upon recommendation by the Commanding Officer to Petty Officer Second Class and above who have completed six or more years active naval service and are currently qualified the specified watchstations. For paygrade E-5, the Commanding Officer should ensure all military and professional requirements for advancement to E-6 are completed before forwarding recommendation (Include watchstation qualification dates and completion of advancement requirements on NAVPERS 1221/6).
2. Members serving in senior nuclear billets (NEC 339X) at commands where the specified watchstations do not exist are considered to have satisfied the watch qualification criteria if they were previously qualified on the required watchstations. Personnel who are advanced to CPO while serving at these commands may continue to be eligible for NEC 339X based on previous attainment of watchstation qualification required for paygrade E-6. In all cases, previous watchstation qualification must be documented in the member’s service record.
3. Members with NEC 339X who are transferred to a nuclear powered ship and assigned in a senior nuclear billet will retain NEC 339X for a maximum of six months. If the member has requalified on the applicable watchstations NEC 339X may be retained. If the member has not requalified in six months, the Commanding Officer is directed to recommend a change in NEC 339X to 338X or removal of NEC as appropriate (See OPNAVINST 1220.1 Series for guidance).
4. First Class Petty Officers with NEC 339X attached to nuclear powered ships who are advanced to CPO will retain their NEC while completing qualification as Engineering Watch Supervisor or Propulsion Plant Watch Supervisor. OPNAVINST 1220.1A (NOTAL) specifies time limits for attainment of required watchstation qualification.
5. Members with NEC 3389 who are scheduled to be transferred to a nuclear powered ship are screened by Chief of Naval Operations (N13) per MILPERSCOMINST 1540.1 Series. Based upon this screen, NEC 338X or NEC 339X will be assigned. Chief of Naval Operations (N13) will specify requalification time limits for the individual by letter to his Commanding Officer. MILPERSCOMINST 1540.1 Series and OPNAVINST 1220.1 Series (NOTAL) apply. Commanding officers should recommend NEC change to 338X as a step toward possible NEC removal recommendation when personnel with NEC 339X are delinquent in requalification (See OPNAVINST 1220.1 Series for guidance).
6. Commanding Officers shall recommend NEC 338X in the case of those members with NEC 339X who are unable to maintain the necessary proficiency and leadership skills for continued assignment in senior nuclear power supervisory positions but who are still considered satisfactory nuclear propulsion plant operators. Those personnel who are unable to regain the necessary proficiency and leadership skills for supervisory positions should be considered for removal of their nuclear operator NEC 338X (See OPNAVINST 1220.1 Series for guidance).
7. On each ship there may be a few, singularly outstanding individuals who have clearly demonstrated that they are able to be effective supervisors prior to having six years time in service. In order to recognize the exceptional performance of these individuals, Commanding Officers may recommend a waiver of the six year time in service requirement to a minimum of five years time in service for supervisory NEC (339X). This recommendation will be on a case basis for those individuals who, in addition to meeting the requirements of paygrade, technical ability and leadership have qualified as Engineering Watch Supervisor (EWS) or Propulsion Plant Watch Supervisor (PPWS). The waiver of the time in service requires the approval of the Bureau of Naval Personnel (N13).
8. Submit recommendation for change or removal of NECs for Enlisted Nuclear Propulsion Operators to the Chief of Naval Operations (N13) who will resolve the NEC change recommendation (See OPNAVINST 1220.1 Series for additional guidance).

NOTES:
1. Top Secret/Sensitive Compartmented Information security clearance required.
2. Must be able to view stereoscopic imagery.
3. Successful completion of both courses is required in order to be awarded this NEC code.
4. Recqualification/recertification or “loss of currency” training requirements for individuals who fall out of certification will be determined by Cruise Missile Support Activity (CMSA) through formal evaluation to assess the degree and scope of training required for each individual. Loss of currency corrective actions listed below require CMSA Commanding Officer approval:
   a. Out of currency 181 days to two years requires the individual to successfully complete a formal practical evaluation as required for recertification. Recertification training timeline range from one to three weeks (15 training days) and is dependent upon the individual’s performance during CMSA formal evaluation.
   b. Out of currency by more than two years requires complete CMSA level retraining and recertification. Recertification training timeline is approximately five weeks (25 training days).

1. Personnel that are assigned to a CG-47 (smart ship) holding either NEC codes 4124 or 4126 Gas Turbine Mechanical Technician, have a minimum of twelve (12) months CG-47 (smart ship) platform experience and completed local JQR for the propulsion control and electric generating system are, with Commanding Officer's recommendation, eligible to apply for NEC code 4143. Submit NAVPERS 1221/6 to PERS-4013D2.
2. Personnel who have completed A-652-0039 CG-47 Smart Ship Console Operator training or S-652-0041 AEGIS Smart Ship Engineering Control System Equipment (ECSE) operator and familiarization are immediately authorized to be awarded NEC code 4143. Submit NAVPERS 1221/6 with Commanding Officer’s endorsement to NAVPERS-4013D2.

4145 - NAMTS Gas Turbine (Electrical) Repair Technician

Performs Navy Afloat Maintenance Training Strategy (NAMTS) intermediate-level support procedures including inspecting, troubleshooting, and repairing Gas Turbine (Electrical) systems and associated components in support of Fleet-directed requirements. Demonstrates knowledge of intermediate-level repair procedures, repair and maintenance standards, quality assurance specifications, and proper use of Intermediate Maintenance Activity (IMA) industrial machinery.

MACHINIST'S MATE

4201 - Cryogenics Technician, Overseas Shore Based Equipment Operator/Maintainer
Operates, tests, inspects, and performs organizational and intermediate level maintenance on shore based (overseas) high and low pressure liquid oxygen and nitrogen generating plants in the manufacture of liquid oxygen and liquid nitrogen. Tests liquid oxygen and liquid nitrogen for purity and acetylene contamination. Performs required checks on O2/N2 compressed gas cylinders both prior to and after charging them to proper pressure. Operates and maintains mechanical refrigeration systems, reciprocating high pressure and centrifugal low pressure air compressors, cryo generators, vacuum pumps, and gaseous distribution systems. Detects, analyzes and corrects abnormal situations which may arise during operation of liquid oxygen/nitrogen generating plants.

When an HT who is not currently certified in specific NDT technique is assigned to a NDT billet, certification must be established in accordance with NAVSEA 05 250-1500-1 and NSTM CH 074 V2 within three months of reporting on board. If the inspector/examiner fails to recertify, a NAVPERS 1221/6 recommending removal of the specific NEC code shall be submitted by the Commanding Officer. The NEC code removal must cite the reason for the individual’s failure to certify/recertify and whether the member has performed to the extent of his/her ability. If an extension of recertification time beyond three months is considered appropriate, the member’s Commanding Officer shall submit a request for a maximum 3-month extension to CHNAVPERS (Pers-402). This request must discuss the reason for the extension. Subsequent to initial certification or recertification the inspector/examiner must maintain certification when assigned to an NDT billet regardless of the duties to which assigned. NEC codes 4942-4946 require certification. Submit NAVPERS 1221/6 to PERS-4013D2 with a verification copy attached. Addressed requests for examiner certification to:

ENGINEERING AID

5501 - Construction Inspector
Reviews and analyzes project construction drawings and specifications and prepares a Construction Inspection Plan including a checklist of inspection points during critical phases of construction and installation. Verifies that all materials and/or equipment ordered meet applicable project specifications and certifies their conformance to these specifications upon receipt. Inspects all phases of construction and installation, including civil, architectural and structural, electrical and mechanical, for compliance with drawings, specifications and acceptable safe operating, installation, and construction practices. Schedules, coordinates, and observes tests on electrical and mechanical systems (includes operational tests on installed equipment) and arranges for quality control tests on such items as sub-base materials, aggregates and cementitious binders and on related mixes before, during and after installation. Prepares logs, records and reports on all inspections, and tests.

AVIATION WARFARE SYSTEMS OPERATOR
APPLIES TO ALL AVIATION WARFARE SYSTEMS OPERATOR NEC CODES:
AW's are Naval Aircrewman (NAC) in a permanent flight status. They man sensor positions in fixed and rotary wing ASW aircraft based ashore and aboard aircraft carriers, escort vessels, and sea control ships, and serve as analysts in ASW Modules and Tactical Support Center (TSC). They also perform collateral duties in rescue and utility functions aboard multipurpose aircraft with an ASW mission. AW's who do not volunteer or are not qualified for flight must change their rating in accordance with MILPERSMAN 1220-020.

NOTES:
1. AW personnel perform in-flight duties in accordance with various aircrew positions as enumerated by the Chief of Naval Operations.
2. These NECs reflect a member's aircrew and rating standards and verify the member's entitlement to flight pay. They do not, however, authorize payment nor determine the category of payment.
3. Participation in the NAC program and the principles governing payment therefore are contained in BUPERSINST 1326.4. Compliance with this instruction is mandatory prior to submission of recommendations for these NECs.
4. Individuals should be recommended for assignment of these NECs as soon as respective qualifications are obtained.
5. Final qualification for NAC designator is not a prerequisite for assignment of these NECs. However, final aircrew qualification is a requirement for retention within the AW rating community.
6. Basic specialty NECs will be assigned upon satisfactory completion of fleet readiness squadron training. Regardless of NEC, AC designation may only be awarded after successful completion of operational standards prescribed by the Chief of Naval Operations.
7. These NECs are the primary means of identification for AW aircrew qualifications. Commands shall ensure submission of NAVPERS 1221/6 to PERS-4013D2 immediately upon qualification for these NECs. Request for removal of any of these NECs will be submitted to OPNAV N13 via PERS-4013D2 for final adjudication. Special emphasis must be given to the accuracy of billet coding and individual identification to provide for the assignment and/or retention of aircrew within the enlisted personnel distribution system.

NAVAL AIRCREWMAN

8201 - 8289 Naval Aircrewmen

APPLIES TO NAVAL AIRCREWMEN OPERATOR NECs: AW's are Naval Aircrewman (NAC) in a permanent flight status. They man positions in fixed and rotary wing aircraft based ashore and aboard aircraft carriers, escort vessels, and sea control ships, and serve in ASW Modules and Tactical Support Center (TSC). They also perform collateral duties in rescue and utility functions aboard multipurpose aircraft. AW's who no longer volunteer or are not qualified for flight must change their rating in accordance with MILPERSMAN 1220-020.

NOTES:
1. AW personnel perform in-flight duties in accordance with various aircrew positions as enumerated by the Chief of Naval Operations.
2. These NECs reflect a member's aircrew and rating standards and verify the member's entitlement to flight pay. They do not, however, authorize payment nor determine the category of payment.
3. Participation in the NAC program and the principles governing payment therefore are contained in BUPERSINST 1326.4. Compliance with this instruction is mandatory prior to submission of recommendations for these NECs.
4. Individuals should be recommended for assignment of these NECs as soon as respective qualifications are obtained.
5. Final qualification for NAC designator is not a prerequisite for assignment of these NECs. However, final aircrew qualification is a requirement for retention within the AW rating.
6. Basic specialty NECs will be assigned upon satisfactory completion of fleet readiness squadron training. Regardless of NEC, AC designation may only be awarded after successful completion of operational standards prescribed by the Chief of Naval Operations.
7. These NECs are the primary means of identification for aircrew qualifications. Commands shall ensure submission of NAVPERS 1221/6 to PERS-4013D2 immediately upon qualification for these NECs. Request for removal of any of these NECs will be submitted to OPNAV N13 via PERS-4013D2 for final adjudication. Special emphasis must be given to the accuracy of billet coding and individual identification to provide for the assignment and/or retention of aircrew within the enlisted personnel distribution system.

8193 - Graphic Illustrator Apprentice

Demonstrates skills in the principles of creating and integrating text, graphics, sound, animation and full-motion video into multimedia and web-based packages. Understands the fundamentals of color theory, realistic drawing, color media, lettering, printing reproduction, elements of graphic design; image editing; desktop publishing; the operation of computer systems, input and output devices to acquire, design, manage, disseminate and archive digital imaging, graphic design and multimedia files; and implementation of color management. Creates, imports, edits and disseminates art work files, with captions, Visual Information Record Identification Numbers (VIRIN) and other pertinent metadata used in the archiving of data/image files. Demonstrates working knowledge of computer management, computer hardware and software, system configuration, computer graphics, raster and vector software, electronic presentations, ethics, visual communications, web page design software, animation software, digitized audio and video software, combat documentation (reference sketches) graphics, and safety and security.

NOTES:
1. The AW and AWF "Source Rating" is limited to the Full Time Support (FTS) community members who have previously earned the Navy Enlisted Classification (NEC) code prior to 1 October 2008 ONLY. This NEC code is not authorized for NEW assignment to AW and AWF members who did not previously earn the NEC code prior to 1 October 2008.
2. Due to the unique nature of the AW/AWF FTS community, personnel who earned the Navy Enlisted Classification (NEC) codes 8300 or 8800 prior to the fixed wing AW rating merger may reapply for reinstatement of their previously awarded 8300 or 8800. Member must provide documentation and Navy Personnel (NAVPERS) 1221/6 to Personnel (PERS)-4013D2 via Bureau of Personnel (BUPERS)-32 (Aviation Enlisted Community Manager (ECM)) showing NEC code was previously awarded or member completed all prerequisites prior to 1 October 2008. All AW/AWF FTS personnel who previously held the 8800 and request reinstatement, will also be eligible to request the 8300, provided all requirements listed below are met.
3. For all other listed "Source Ratings" to be awarded this NEC code, personnel must be a Senior Chief or Master Chief who has held one or more of the following billets while E-8 or E-9 level; and must have served in the billet for at least 12 months: Maintenance Control Supervisor, Production Control Supervisor, Quality Assurance (QA) Supervisor (O or I Level), Division Leading Chief (I Level only). Submit documentation of completed prerequisite billet along with NAVPERS 1221/6 to PERS-4013D2 via the Enlisted Community Manager (ECM).

8303-8391 - Aircraft Maintenance Technician
Selected Reserve (SELRES) personnel must complete the course requirements for an 8300 series NEC for those courses which have a prerequisite 8800 series NEC. The 8300 series NEC may be Reserve Job Qualification Requirements (RJQR) syllabus awardable only when there is not an associated 8800 series NEC.

9568 - Joint Terminal Attack Controller (JTAC)
A qualified (certified) service member who, from a forward position, directs the action of combat aircraft engaged in Close Air Support (CAS) and other offensive air operations. A qualified and current JTAC will be recognized across DoD as capable and authorized to perform terminal attack control. CAS is an element of joint fire support. Synchronizing CAS in time, space, and purpose with supported maneuver forces increases the effectiveness of the joint force. CAS is air action by fixed and rotary-wing aircraft against hostile targets that are in close proximity to friendly forces and that require detailed integration of each air mission with fire and movement of those forces. CAS assist land, maritime, amphibious, and Special Operations Forces (SOF) to move, maneuver, and control territory, populations, and key waters. The support commander establishes the priority, timing, and effects of CAS fires within the boundaries of the land, maritime, SOF, or amphibious force’s area of operations. SOF may also need CAS and other joint fire, support at locations well beyond land, maritime, and amphibious operations force commanders’ areas of operations.

NOTES:
1. Courses, CINs and CDPs:
   a. Courses without CIN or CDP listed are not currently available. Courses can be developed if a requirement exists. Contact OPNAV (N13F) for further guidance.
   b. CINs and CDPs marked with an asterisk “*” are deactivated per CANTRAC.
   c. CINs and CDPs marked with a double asterisk “**” are Naval Special Warfare initial acquisition training courses.

2. NEC Code Awarding Criteria:
   a. May be awarded for foreign language proficiency as measured by an approved Department of Defense (DoD) language proficiency test at the 1+ level in reading and the 1+ level for listening on the Interagency Language Roundtable (ILR) scale. May also be awarded for speaking proficiency at the 1+ level as measured by a DoD approved Oral Proficiency Interview (OPI) if no DoD proficiency test is available for the specific language.
   b. Personnel awarded language NEC codes must recertify language proficiency annually, and report results to NETPDTC.
   c. For languages that do not have a course or a DoD approved test or OPI, the NEC code may be awarded upon approval from OPNAV (N13F).

9ACH-9ZUN - Language Capability (Personnel Only)
Identifies a foreign language in which an individual is proficient.

NOTES:
1. **Courses, CINs and CDPs:**
   a. Courses without CIN or CDP listed are not currently available. Courses can be developed if a requirement exists. Contact OPNAV (N13F) for further guidance.

2. **NEC Code Award Criteria:**
   a. May be awarded for foreign language proficiency as measured by an approved Department of Defense (DoD) language proficiency test at the 1+ level in reading and the 1+ level for listening on the Interagency Language Roundtable (ILR) scale. May also be awarded for speaking proficiency at the 1+ level as measured by a DoD approved Oral Proficiency Interview (OPI) if no DoD proficiency test is available for the specific language.

   b. Personnel awarded language NEC codes must recertify language proficiency annually, and report results to NETPDTC.

   c. For languages that do not have a course or a DoD approved test or OPI, the NEC code may be awarded upon approval from OPNAV (N13F).
CHAPTER V

PLANNING SERIES NEC CODES

Planning NEC codes are approved for planning purposes only. These NEC codes may be used in conjunction with Navy Training Plans, in developing planned training courses, and other applicable long-range projects. Planning NEC codes may be written in manpower authorizations to project requirements and used for other planning purposes; however, they are not assigned to personnel.

NEC CODE PROPOSALS

A. INTRODUCTION

This Appendix provides guidance on how to prepare and submit recommendations for establishing, disestablishing, or revising Navy Enlisted Classification (NEC) codes. The Navy Manpower Analysis Center (NAVMAC) is the administrator for all proposals submitted to the Navy Enlisted Occupational Classification System (NEOCS) process for approval. **All** proposals **shall** be submitted by an Echelon 3 or higher activity, and those having an impact on the student Individual Account (IA) **shall** be submitted via their enterprise Primary Advisor (i.e., OPNAV (N2/N6, N95, N96, N97, N98) (endorsement letter **MUST** accompany proposal) to: Commanding Officer, Navy Manpower Analysis Center (Code 10), 5722 Integrity Drive, Millington, TN 38054-5011. Proposals which do not have an impact on the student IA (e.g. Planning/Tracking NEC code establishments, PQS/JQR/OJT awardable NEC code establishments) **DO NOT** require a preliminary endorsement letter. **All** Acquisition related proposals for NEC codes **shall** be approved and endorsed by the Assistant Secretary of the Navy (ASN) for Research, Development and Acquisition (RDA) - Director, Acquisition Career Management (DACKM) office. Please note that although technical merit is a primary consideration in a NEC code proposal, NEC code actions will always be finalized in light of resources, programming, and personnel management implications.

B. METHODOLOGY FOR ESTABLISHING NECS

1. The NEOCS Board will review and decide upon all new NEC code proposals. NAVMAC is responsible for Board administration and technical assistance in developing and implementing changes to the enlisted classification system. OPNAVINST 1223.1C details NEOCS Board composition and responsibilities.

2. Criteria for Establishing NECs. The NEOCS Board reviews all requests for new NEC codes considering following technical criteria:
   a. The NEC code must not duplicate Occupational Standards.
   b. Skill identification needs must be long term.
   c. The proposed NEC code must not reflect routine fleet training.
   d. There must be a need to document the skill in the Enlisted Master Record (EMR).
   e. The skill identification must be necessary throughout the Navy.
   f. The proposed NEC code must reflect workload required to support new equipment.

   **Note:** A good rule when drafting or reviewing new NEC code requests is to justify the Navy's need to *identify a skill over five to ten years.*

3. NEC Code Establishment.
   a. Rating Series, Special Series, and Alphanumeric NEC Codes. Figure A-1 identifies the information and format required to establish a Rating Series, Special Series, or Alphanumeric NEC code. Submit recommendations to establish an NEC code 180 days before the date the NEC code is to be awarded, i.e., 180 days before completion of initial course/factory training. Requests, which involve mandatory training, should address resource implications.

   b. Planning NEC Codes. Figure A-1, paragraphs 1.a., d., h.(2), i., k., p., q., r., v., and w. identify the information required to establish a Planning NEC code. Submit recommendations to convert Planning NEC codes to Rating Series, Special Series, or Alphanumeric NEC codes 180 days before the date the NEC code is to be awarded, (i.e., 180 days before completion of initial course/factory training) using all components of Figure A-1.

   c. Tracking NEC Codes. Figure A-1 identifies the information and format required to establish a Tracking NEC code, all information which makes reference to billets (paragraphs 1.i., and k.) is not required.

   **Note:** To revise an existing Tracking NEC code (personnel only) for assignment to billets and personnel, proposal **MUST** be submitted utilizing Figure A-1 to include billet information. **All** funding implications **MUST** be clearly stated as having an offset, planned/programed (POM) for or APPROVED.

4. NEC Code Revision. All recommendations to revise an NEC code must identify the proposed change and state the justification/rationale for the revision. Revisions which involve a change from OJT to course mandatory training also should address resource implications. Use standard Navy letter format as identified in Figure A-2 when submitting requests for NEC code revisions.

**Exception:** When revising an existing Tracking NEC code to include assignment to billets, Figure A-1 **MUST** be utilized as stated above for new establishments; however, the proposal will be processed as a revision and the Subj: line **shall** be annotated as such.
5. **NEC Code Disestablishment.** All recommendations to disestablish a NEC code must state the reason or rationale for disestablishment and any required billet and/or personnel recoding action. Use standard Navy letter format as identified in Figure A-3 when submitting requests for NEC code disestablishments.
From:  Title of activity submitting proposal (SNDL Listing) (Echelon 3 or higher activity)  
To:  Commanding Officer, Navy Manpower Analysis Center (Code 10)  
Via:  Endorsement(s) (REQUIRED for all new establishments; accompanying endorsement letter(s) shall CLEARLY communicate acceptance of responsibility for any funding (i.e. training or systems) implications, and said funding has been APPROVED in support of subject NEC code establishment(s))  

Subj:  PROPOSAL TO ESTABLISH/REVISE (Tracking NEC code) NAVY ENLISTED CLASSIFICATION (NEC) CODE (place the first two digits and two Xs (e.g. 14XX) and the proposed title here)  

Ref:  (a) NAVPERS 18068F, Volume II (NECs)  
(b) OPNAVINST 1223.1C  
(c) List additional references that relate to this proposal  

1.  Request establishment of a new NEC code per references (a) and (b).  
   a.  NEC Code and title.  Recommend a NEC code number and a title.  Use the first two digits of the proposed code and two Xs (e.g., 14XX).  
   b.  Sequence Code.  Recommend a sequence code for prioritizing the NEC code on the Enlisted Master Record.  See Chapter I paragraph C., 4. for sequence code discussion.  
   c.  Description.  Describe the proposed NEC code by identifying the job tasks to be performed; particularly what skill-sets the NEC code provides that is not associated with a rating.  
   d.  Source Rating(s).  List the rating(s) associated with the NEC code (e.g., BM only, BM and QM, or BM, QM, GM).  
   e.  Component NEC.  Identify any prerequisite skill(s) (Component NEC) that a member must have earned before being awarded the principle NEC code, if any.  Under normal circumstances the Component NEC is removed once the principal NEC code is awarded.  However, with sufficient justification for unique situations such as community management initiatives or legacy retainment purposes, the Component NEC may be retained in the members EMR; the stipulation for retainment will be annotated in the NOTE section of the principal NEC code.  If multiple Component NECs, identify and/or requirement (42XX and 43XX) (42XX or 43XX).  
   f.  Related NEC.  Identify existing NEC(s) similar in scope to the proposed NEC (Related NEC), if any.  
   g.  Cost Analysis.  What will be the net effect on students IA in terms of man-years/Manpower Personnel Navy (MPN)?  

   NOTE: MPN man-years in the student IA are calculated by multiplying course length in days (include weekends) by number of students and dividing that by 365 for initial training in man-years.  This figure is divided by 3 for approximate follow-on, per-year cost for out years.  

   \[ \text{Course length in days} \times \text{number of billets} = \text{MPN} \]  
   \[ \frac{\text{MPN}}{365} = \text{Approx follow-on} \]  
   \[ \frac{\text{Approx follow-on}}{3} = \text{MPN} \]  
   h.  Training/Offsets.  List the training needed to earn the proposed NEC code, the implications it may have on TAD training, and the impact it may have on increasing overall cost to the Navy in the out-years.  Offsets must be identified with submission of your proposal.  Offsets are required to cover the expected follow-on training costs.  Acceptable offsets for student IA may be reduced time-to-train or reduced annual throughput in related NEC codes; elimination of related NEC codes; transfer of end strength from the force structure to the student account; or successful POM actions.  NEC code requests which will cause in increase in the number of instructors or increase in TDI expenses also require offsets in MPN and/or OMN funding.  Requests which do not have identified offsets will not receive concurrence when routed for approval.  POC for questions regarding offsets is OPNAV N122D.  

   (1)  Identify whether the NEC code will be awarded through formal training or through OJT.  
   (2)  State whether the course is new or on-going.  If new, state the ready-for-training date.  
   (3)  List CIN/CDP when a formal training course is required.  If CIN/CDP is unknown, list training as "under development."  
   (4)  List the length of training (in days).  
   (5)  Any establishments, revisions etc., to CIN/CDP should be addressed to NETC.  
   (6)  Increase/savings to course length.

Subj: PROPOSAL TO ESTABLISH A NAVY ENLISTED CLASSIFICATION (NEC) (place the first two digits and two Xs (e.g. 14XX) and the proposed title here)

(7) Will difference course be required?
(8) Can this be done through non-traditional training sites, or by internet-based course?
(9) How does this fit into Navy Training System Plan (NTSP)? (Contact appropriate SYSCOM for info)
(10) If this is replacing another NEC or school, to what percent? How many personnel went through previous NEC, and how long was the course (man-years)?
(11) How many personnel are intended to go through per year? (Contact OPNAV (N00T))

NOTE: Unless otherwise directed, the originator of a request for an NEC code establishment is responsible for ensuring entry of proper course data into the corporate enterprise Training Activity Resource System (CeTARS) as an integral part of the process.

i. Number of Billets. Identify the approximate number of billets requiring the NEC.

j. Personnel Paygrade. Identify the paygrade range for personnel who will hold the NEC (e.g., E4 - E5, E6 - E9).

k. Billet Paygrade. Identify the paygrade range for billet identified with this NEC (e.g., E4 - E5, E6 - E9).

l. Special Qualifications/Stipulations. Identify special qualifications associated with the NEC code (i.e. a security clearance, 20/20 vision, certifications); specific criteria for recertification and any related timelines shall also be addressed; any other special stipulations required for awarding and/or assignment. It is also very prudent for accurate NEC code management that the Primary and Technical Advisors conduct, at a minimum, an annual review of ALL NEC codes under their purview for validity. The Catalog of Navy Training Courses (CANTRAC) is the authoritative source for specific training, certification/recertification, and other requisite requirements such as physical stature attributes that MUST be maintained by an individual.

m. Skill Identification. Indicate whether the proposed skill (NEC) currently exists as part of a rating or another NEC code.

n. Assignment (Open/Closed). Indicate whether the proposed NEC is "Open" or "Closed" to Women.

o. Inactive Duty Select Reservists. Identify the applicable inactive duty Selected Reserve (SELRES) category for the NEC from the following listing and provide supporting rationale. Coordinate your recommendation with OPNAV (N951G).

Category "A" The NEC is attainable by SELRES, and is therefore assignable to SELRES personnel and manpower requirements with no restrictions. SELRES are able to complete training for the NEC within three years of normal inactive duty training cycles of 48 regular drills and two weeks Annual Training (AT) per year (Training Category (TRC) A). The NEC can be earned by the following means:

- Active Duty formal training courses that have not been modified or segmented into modules for SELRES applications,
- Segmented or modularized formal training courses that may be completed within three years of normal TRC A training cycles (Note 1),
- Specific civilian training/certification (Note 2), or
- OJT that can be completed with three years of normal TRC A training cycles (Note 2).

Additionally, NECs are assignable to SELRES manpower requirements if the formal courses of instruction that award the NEC will be modified to facilitate SELRES completion of all requirements for the NEC within three years of normal TRC A training cycles. The requirements for periodic recertification/requalification for the NEC cannot exceed a normal, annual TRC A training cycle (Note 1).

Category "R" The NEC cannot normally be attained by SELRES within three years or normal TRC A training cycles however, is assignable with restrictions to SELRES manpower requirements if SELRES already holding a NEC in this category can maintain periodic recertification/requalification required for the NEC within a normal, annual TRC A training cycle (Note 3).

Category "N" The NEC is not assignable to SELRES personnel or manpower requirements because periodic recertification/requalification for the NEC cannot be maintained by a SELRES during a normal, annual TRC A training cycle. Programming of SELRES manpower requirements with these NECs is not authorized (Note 4).

NOTE 1: A formal training course that awards the NEC or maintains recertification/requalification may be segmented into modules if recommended by COMNAVRESFOR (Code 04), approved by OPNAV (N12)/NETC and certified to be funded for segmentation by the appropriate OPNAV resource sponsor. If the Training Agent certifies that the training course will be on line within one year, assignment of the NR IND of A is allowed.
NOTE: NECs will be awarded to SELRES personnel upon completion of civilian training courses leading to the awarding of a certificate, diploma or license, and for the completion of OJT when a waiver of formal training requirements has been requested and obtained from the appropriate Training Agent.

NOTE 3: NAVMAC (Code 20) will limit the number of SELRES manpower requirements with "R" NECs in the Total Force Manpower Management System (TFMMS) to 125% of the number of SELRES personnel in inventory holding the NEC. Requirements will be reviewed annually to ensure they do not exceed this limit, and reprogramming actions directed where necessary.

NOTE 4: NAVMAC (Code 20) will direct management actions to eliminate or preclude establishment of SELRES manpower requirements with "N" NECs.

NOTE 5: COMNAVRESFOR will annually review and coordinate the update of all SELRES NEC categories with appropriate NEC Advisors.

p. **Coordination.** The primary advisor should **look** at all cost associated with the establishment and **provide** a cost estimate for the establishment and **agree** to assume all associated cost. If TAD cost are associated with the establishment TYCOMS should be **notified and agree** to assume any associated TAD cost.

NOTE: Originator shall obtain a signed endorsement from activity identified in their proposal on the VIA: line, signed endorsement shall accompany proposal. Originator is responsible for contacting appropriate commands for this info prior to submission. The accompanying endorsement letter(s) shall CLEARLY communicate acceptance of responsibility for any funding (i.e. training or systems) implications, and said funding has been APPROVED in support of subject NEC code establishment(s).

q. **Directives.** Identify special directives associated with the NEC, such as instructions or manuals.

r. **Justification.** Explain the purpose of the proposed NEC and how it will impact manpower increases/decreases. Be specific as possible.

s. **Platform/Equipment.** Identify the new platform(s) and/or equipment the proposed NEC will support.

1. Identify the "phase in" period for new platform(s), equipment, and training.
2. Is the proposed NEC code replacing an existing NEC code? If yes:
   a) When is the old platform(s) or equipment no longer in service; and
   b) Identify the date the NEC being replaced may be deleted.

t. **Occupation Standards.** When requesting establishment of a Rating Series NEC, indicate whether the proposed NEC does or does not duplicate existing Occupational Standards for the rating(s) involved, NAVPERS 18068F, Volume I identifies rating specific occupational standards.

u. **Workload Measurements.** When requesting the establishment of a NEC, identify workload levels for each new equipment. The work may be generated either by watch station requirements, Planned Maintenance (PM), Corrective Maintenance (CM), or by other specific mission essential elements. The work could be supported by any combination of the preceding types of workload.

v. **Primary Advisor/Technical Advisor/Enlisted Community Manager.** Provide the abbreviated activity name, along with the specific internal code responsible for subject NEC, which identifies the respective Primary Advisor/Technical Advisor/Enlisted Community Manager.

w. **Point of Contact.** Identify the name, telephone number (commercial and DSN), and E-Mail address of a person knowledgeable about the proposed NEC.

Notes:
1. Paragraph s. is applicable for NECs proposed to support new equipment.
2. Each new skill code shall be evaluated by OPNAV (N122) when the equipment or system is fully developed.

ORIGINATORS JUSTIFICATION:

1. State the justification for your proposal. If there are any changes in student funding (e.g. INCREASE IN TRAINING/COST SAVINGS), please provide detailed information of who's paying (currently and through the out-years) or any off-sets related to current training; TDI cost should also be addressed if required.

2. Revision example: Description revised to properly identify required skill-sets.

3. Revision example: CIN and CDP updated to accurately reflect the current course awarding the NEC code, provide date of activation. Delete current “CIN/CDP” and add proposed “CIN/CDP.” STUDENT FUNDING (IA)/TDI COST: Must have specific details; even if there’s no change explain why.

4. Revision example: Related NEC code added because of the vast similarities of skill-sets and related billet functions.

* The “ORIGINATORS JUSTIFICATION” section is a summary of justification(s) for the change to be affected on each individual data field. Site all pertinent references (if any) that will support your justification/proposal.

1. In accordance with references (a) and (b), enclosure (1) is submitted for review, consideration, and approval by the Navy Enlisted Occupational Classification System (NEOCS) Board. This proposal considers current and proposed billet structures, personnel inventory, training impact (to include the IA Account), career paths for the affected rating(s), advantages and disadvantages of this proposed establishment/deletion/merger, advancement opportunity, sea/shore rotation, opportunities for women, clearance issues, NEC code issues, reserve implications, Armed Services Vocational Aptitude and Batter Test (ASVAB) scores, rating badge, and rating name.

2. As a means to accelerate the review process, enclosure (2) is provided as an executive summary; and upon approval of the proposal by CNO, enclosure (3) shall be released by DCNO (N1).

Proposal to *Establish/Disestablish/Merge (Rating And Rating)*

RATING BADGE

RATING BADGE

Enclosure (1)
1. **Purpose:** Mention any steering committee meetings or groups that met to review rating issues and policies, project future requirements and make recommendations which would include the concept brief given to the Manpower, Personnel and Training Working Group (MPTWG) for concept development.

2. **Justification:** Explanation of how it will benefit the Navy and the Sailors. Examples of Sailors’ benefits could be promotion opportunities, diversity of assignments and/or training etc.

3. **Rating Scope:** To include existing/proposed. Individual Learning Centers or Enlisted Community Managers would provide this.

4. **Career Path:** To included existing/proposed. Current Career Path can be found in NAVPERS 18068F. Should include advancement opportunities.

5. **Billet Structure:** To include existing/proposed. Break-down of Sea and Shore rotation. This would be the Enlisted Programmed Authorization (EPA) Structure. Include Reserve EPA Tables (existing/proposed). Should include explanation how the new billet structure would be displayed. If excess billets will be achieved with the merger, should include explanation on how the excess billets would be recoded (sea/shore). If additional billets are required, include an explanation on where the compensation would come from. Is there workload to support additional billets? Who will pay for the additional billets?

6. **Personnel Inventory:** To include existing/proposed. Separate tables for active and reserve. Give total number of personnel and display percentage breakdown by paygrade. If all current personnel are not required in the new proposed rating, how will conversions be handled?

7. **Training:** To include existing/proposed (what schools, location, duration, CBT, OJT etc). Need to state who will absorb the cost if there is a training requirement increase. Will there be a difference course (for the higher paygrades) offered when the merger is complete? Will CDs need to be developed? Will PCS be involved if training sites move or if a new training site is established. Has the PCS been planned for? Does the Navy have resources (trainers) to train at the new proposed site? Consider training sites that award an NEC. Is there going to be an Individual Accounts (IA) increase? Will these schools be consolidated?

8. **Primary/Enterprise Resource Sponsor/OPNAV (N10):** A statement to the effect they will ensure the cost associated with the rating merger will be programmed for as required.

9. **NEC Code(s):** Will a new NEC code(s) need to be established? Will NEC codes need to be merged? Will NEC codes need to be disestablished? Will source ratings need to be revised or added? School producing NEC codes should be addressed under Training.

10. **Women:** Open etc.? Any concerns or issue regarding women if ratings are established/merged/disestablished (example - bunks at sea)?

11. **Clearance Issues/Naturalization Issues:** To include existing. Will this change once the ratings are merged? How will the billets and personnel be affected? Due to the backlog of SCI security clearance adjudications, it is imperative to discuss any issues this backlog causes WRT to accomplishing the mission (i.e. junior Sailors may sit at a PCS duty station for over a year before getting a final TS SCI security clearance, so what are we going to do prior to their arrival to shorten this time lag?)

12. **Reserves:** Impact. How will they handle the conversion? Does anything pose a problem for the Reserves (i.e. cost, women, time requirements, etc)?

13. **Facilities/Equipment:** MILCON issues, equipment purchases, etc.

14. **Sea/Shore Rotation:** To include existing/proposed (ECM can give you this information). If the existing is changing, give an explanation.

15. **Rating Badge:** Will existing badge remain or will it change? If change is needed, notify the NEXCOM, and in the proposal state what it will be and if the name changes, add that as well.

16. **Timeframe:** Here you will need to explain the timeframe involved to implement the proposal. (i.e. will you do E9 & E8, then E7, and E6 and below) or will the implementation occur all at one time? When will conversion be completed?

17. **Summary:** Pros and cons. Closing remarks.

Enclosure (1)
Subject: PROPOSAL TO ESTABLISH/DISESTABLISH/MERGE (RATING AND RATING)  
(PROPOSAL TO ESTABLISH THE SUBMARINE INFORMATION SYSTEMS TECHNICIAN (ITS) SERVICE RATING)

1. **Executive Issues:**
   - *Currently the “A” and “B” ratings are too small to effectively manage community health.*
     - *Very limited promotion opportunities due to very little turnover at E7-E9.*
     - *Small changes in EPA have significant impact to community health.*
     - *Small changes in losses/gains have significant impact to community health (e.g. over assess or excessive losses).*
   - *The action proposed is required to ensure SWE ratings maintain enough inventory to provide operationally relevant Sailors to meet fleet management and training requirements while providing Sailors a viable career in a surface rating.*
